

## Conquer Your Photo Management & Editing Workflows with ACDSee Photo Studio 2025, the Latest AI-Embedded Software from Industry Trailblazers ACD Systems

VICTORIA, BC (September 10<sup>th</sup>, 2024) - Pioneers of the Digital Asset Management (DAM) and creative software landscape, ACD Systems International, are excited to announce the upcoming release of ACDSee Photo Studio Ultimate 2025. This latest edition challenges the status quo by enhancing images at top speed with GPU-accelerated Artificial Intelligence (AI)-powered editing features, like the new ACDSee AI Super-Resolution. A plethora of new and improved tools for browsing, organizing, and searching files push the limits of what's possible in the digital asset management realm. Whether you're scaling the peaks of photo perfection or mapping out new techniques, ACDSee Photo Studio Ultimate 2025 brings unmatched power and ease to your journey.

Top new and improved features include:

- **Faster editing!** The AI-driven photo editing tools now harness the full power of your computer's Graphics Processing Unit (GPU) to blaze past all previous speeds.
- **ACDSee AI Super-Resolution** to intelligently increase the resolution of your images while reducing noise, eliminating unwanted artifacts, and sharpening details. Not only does AI Super-Resolution improve the quality of your images, but it also streamlines your workflow when applied to multiple photos at the same time, saving you time and effort.
- Improved **AI Sky Replacement** to create new horizons with stunning results.
- A **redesigned Masking Group in Develop Mode** gives you more ways to create non-destructive selection masks with new **AI Object**, **Color Range**, and **Luminance Range** masking options, in addition to the AI-powered options you already know and love.
- Use **ACDSee Tabs** to efficiently browse and manage files in one cohesive workspace.
- **ACDSee Activity Manager** for a streamlined way to control and monitor background processes, like AI Keywords and Face Detection.

Learn more about all the new features and improvements by visiting the [ACDSee website](#).

*"We remain steadfast in our commitment to advancing our Photo Studio product line's performance and capabilities, and our software engineering team has once again exceeded expectations. This latest release reflects our dedication to continuous improvement, offering significant enhancements to photo quality and workflow efficiency for both photography amateurs and professionals alike. Owners of previous versions will be excited to see a lot of their suggestions incorporated in this release as well."*

- Frank Lin, COO & CTO
