Construction costs in April 2024 higher than last year

Construction costs for residential buildings 3.0% higher than in April 2023

Vienna, 2024-05-15 – In April 2024, the construction cost index for residential buildings was 3.0% higher than in April 2023, according to preliminary data by Statistics Austria. Cost increased by 5.8% in road construction, by 2.5% in bridge construction and by 5.0% in sanitary engineering within one year.

The construction cost index for construction of **residential buildings** was 125.5 index points in April 2024. Compared to April 2023, this corresponds to an increase of 3.0% (see table 1). Compared to March 2024, costs for construction of residential buildings are on the same level (see table 2).

The index for **road construction** reached 134.6 index points (+5.8% in annual and +0.4% in a monthly comparison). The index for **bridge construction** reached 126.9 index points, which represents an increase of 2.5% compared to April 2023 and a decrease of 0.2% against March 2024. The index for **sanitary engineering** reached 129.2 points (+5.0% in annual and +0.1% in a monthly comparison).

Compared to April 2023, the product groups precast concrete parts and transport recorded strong cost increases that affect all construction branches. Furthermore, the costs of gravel, grit, sand, soil and humus as well as bituminous mixes increased significantly, which was particularly reflected in road construction and sanitary engineering.
