

# Pineapple Energy Reports First Quarter 2022 Financial Results

Closes Merger with Communications Systems, Inc.
Trading Under Symbol PEGY
GAAP Revenue of \$319,000 Reflects 3 Days of Post-Merger Operations
Pro Forma Revenue of \$5.5 Million up 24%

MINNETONKA, Minn., May 23, 2022 (GLOBE NEWSWIRE) -- Pineapple Energy Inc. ("Pineapple" or the "Company"), a leading provider of sustainable solar energy and back-up power to households and small businesses, today reported financial results for the quarter ended March 31, 2022. Dollar amounts in this release have been rounded to the nearest thousands.

"We are thrilled to report to shareholders for the first time as a publicly traded company," said Kyle Udseth, Pineapple Energy's Chief Executive Officer. "We completed the merger with Communications Systems, Inc. ("CSI") near the end of Q1, launching as an operating public company poised to execute our strategy. As we drive toward continued growth and operational improvements in the Hawaii Energy Connection ("HEC") and E-Gear businesses and build our Pineapple and Sungevity brands, we are hard at work evaluating additional acquisition opportunities."

Udseth continued, "We believe the U.S. is in the early innings of the energy transition, and our launch as a public company positions Pineapple to pursue significant opportunities in residential solar, battery storage, electric vehicle charging, and consumer energy services broadly. The total addressable market is substantial, and residential solar is still in low single digits penetration rates in most geographies. We expect demand for solar to rise, as retail power prices are driven higher by inflating fuel prices, volatility from adverse weather, and the ever-greater capital investment required to maintain the current grid."

Pineapple Chief Financial Officer Mark Fandrich added, "While GAAP results are not meaningful due to closing the merger transaction, as well as the acquisition of HEC and E-Gear, three days before the end of the quarter, a pro forma comparison shows solid momentum in our current business. Overall pro forma revenue, which includes legacy CSI, HEC and E-Gear activity, grew 24%. More importantly, solar-specific pro-forma revenue in Hawaii grew 39%, reinforcing our confidence in the growth opportunity there."

Udseth concluded, "Oahu's expanded Battery Bonus Program is emerging as a demand driver on the island. HEC deployed 1.3 megawatt-hours of battery storage in the quarter, with a high proportion falling under the Battery Bonus Program. The program is driving substantial gains in top-of-funnel leads, with web traffic up 26% sequentially and 85% of those users being first-time visitors. Additionally, as of March 31, 2022, Pineapple had \$9.7 million of cash and cash equivalents, including restricted cash, and working capital of \$11.5 million, which included \$4.9 million of legacy CSI working capital. We expect that this gives

us a long runway and means capital raises or other financings will be for the purpose of additional acquisitions, and not driven by a need to raise operating funds over the next twelve months."

### First Quarter 2022 GAAP Results

Because Pineapple Energy LLC is the "accounting acquirer" in its merger with Communications Systems, Inc., the financial statements reflect the historical operating results of Pineapple Energy LLC prior to the merger and the consolidated results of Pineapple Energy LLC, Communications Systems Inc., Hawaii Energy Connection LLC, and E-Gear LLC following the closing date of the merger on March 28, 2022.

Below, all figures are for the first quarter of 2022 unless noted otherwise. All comparisons are with the first quarter of 2021 unless noted otherwise. Note that there was neither revenue nor gross profit in the first quarter of 2021.

Sales were \$319,000, consisting of \$232,000 from the Solar segment, primarily from residential solar sales by HEC and E-Gear, and \$87,000 from the IT Solutions & Services segment, which is expected to be sold as provided under the terms of the merger agreement.

Gross profit of \$95,000 consisted of \$66,000 generated from the Solar segment and \$29,000 from the IT Solutions & Services segment.

Operating expenses of \$1,623,000 included selling, general and administrative expenses, amortization expense and transaction costs. Operating expenses increased 114.4% primarily due to an increase of \$800,000 of transaction costs related to the CSI merger and HEC/E-Gear asset acquisition. In addition, \$78,000 of selling, general, and administrative costs were attributable to the acquired businesses.

Operating loss of \$1,528,000 was greater than the operating loss of \$757,000 in the first quarter of 2021.

Net loss of \$1,884,000 or \$(0.58) per diluted share was greater than the net loss of \$1,068,000 or \$(0.35) per diluted share in the first quarter of 2021.

Pineapple's balance sheet as of March 31, 2022, reflects the financial position of the post-merger combined companies. Cash, cash equivalents, and restricted cash was \$9.7 million and working capital was \$11.5 million, which included \$4.9 million of legacy CSI working capital.

### First Quarter 2022 Pro Forma Results

To facilitate analysis of the Company's operating business, below is an unaudited pro forma presentation of results as if the Company had completed the CSI merger and the HEC/E-Gear asset acquisition as of January 1, 2021.

	Thre	e Months I	Ende	ed March 31
		2022		2021
Net revenue	\$	5,525,000	\$	4,463,000
Net loss	(2	2,556,000)		(3,164,000)
EBITDA*	(*	1,146,000)		(1,713,000)

\*EBITDA is a non-GAAP financial measure. See "Non-GAAP Financial Measures" and the reconciliations in this release for further information.

The unaudited pro forma financial information above is not necessarily indicative of consolidated results of operations of the combined business had the acquisition occurred at the beginning of the respective period, nor is it necessarily indicative of future results of operations of the combined company. The above unaudited pro forma results are not adjusted for the level of corporate overhead costs needed to support the go-forward strategy and instead include a higher cost structure based on operating legacy businesses and the structure in place while carrying out plans to complete the CSI merger transaction. The unaudited pro forma financial information above includes adjustments to add amortization expense for intangible assets totaling \$531,000 and \$537,000 and excludes transaction costs totaling \$2,699,000 and \$1,041,000 for the three months ended March 31, 2022 and 2021, respectively. Additionally, the HEC business is seasonal with Q3 and Q4 historically being the strongest quarters.

### **Status of Contingent Value Rights**

The balance sheet at March 31, 2022 includes a CVR liability of \$18.3 million (approximately \$7.50 per share for CSI legacy shareholders) derived from a valuation analysis of the expected market value of the legacy IT Services & Support segment, the expected value for the sale of the corporate headquarters, which is currently under contract to sell, and legacy CSI restricted cash. This is an estimate only and the actual CVR liability will change based on market factors and an updated valuation analysis each quarter. If the headquarters building sale closes in June, an initial CVR distribution, net of required reserves under the CSI merger agreement, could happen as early as July 30, 2022.

### **About Pineapple Energy**

Pineapple is focused on growing leading local and regional solar, storage, and energy services companies nationwide. Our vision is to power the energy transition through grassroots growth of solar electricity paired with battery storage. Our portfolio of brands (Hawaii Energy Connection, E-Gear, Sungevity, and Horizon Solar Power) provide homeowners and small businesses with an end-to-end product offering spanning solar, battery storage, and grid services.

### **Forward Looking Statements**

This press release includes certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding future financial performance, future growth, and future acquisitions. These statements are based on Pineapple Energy's current expectations or beliefs and are subject to uncertainty and changes in circumstances. Actual results may vary materially from those expressed or implied by the statements here due to changes in economic, business, competitive or regulatory factors, and other risks and uncertainties, set forth in the company's filings with the Securities and Exchange Commission. The forward-looking statements in this press release speak only as of the date of this press release. Pineapple Energy does not undertake any obligation to update or revise these forward-looking statements for any reason, except as required by law.

### **Non-GAAP Financial Measures**

This press release includes non-GAAP financial measures that differ from financial measures calculated in accordance with U.S. generally accepted accounting principles ("GAAP").

EBITDA is a non-GAAP financial measure provided in this release, and is net loss, on a pro forma basis calculated in accordance with GAAP, adjusted for pro forma interest, income taxes, depreciation and amortization, as detailed in the reconciliations presented below in this press release.

These non-GAAP financial measures are presented because the Company believes they are useful indicators of its operating performance. Management uses these measures principally as measures of the Company's operating performance and for planning purposes, including the preparation of the Company's annual operating plan and financial projections. The Company believes these measures are useful to investors as supplemental information and because they are frequently used by analysts, investors and other interested parties to evaluate companies in its industry. The Company also believes these non-GAAP financial measures are useful to its management and investors as a measure of comparative operating performance from period to period.

The non-GAAP financial measures presented in this release should not be considered as an alternative to, or superior to, their respective GAAP financial measures, as measures of financial performance or cash flows from operations as a measure of liquidity, or any other performance measure derived in accordance with GAAP, and they should not be construed to imply that the Company's future results will be unaffected by unusual or non-recurring items. In addition, these measures do not reflect certain cash requirements such as tax payments, debt service requirements, capital expenditures and certain other cash costs that may recur in the future. EBITDA contains certain other limitations, including the failure to reflect our cash expenditures, cash requirements for working capital needs and cash costs to replace assets being depreciated and amortized. In evaluating non-GAAP financial measures, you should be aware that in the future the Company may incur expenses that are the same as or similar to some of the adjustments in this presentation. The Company's presentation of non-GAAP financial measures should not be construed to imply that its future results will be unaffected by any such adjustments. Management compensates for these limitations by primarily relying on the Company's GAAP results in addition to using non-GAAP financial measures on a supplemental basis. The Company's definition of these non-GAAP financial measures is not necessarily comparable to other similarly titled captions of other companies due to different methods of calculation.

### **Reconciliation of Non-GAAP to GAAP Financial Information**

Reconciliation of Pro Forma Net Loss to Pro Forma EBITDA:

	Th	Three Months Ended March 31,			
		2022		2021	
Pro Forma Net Loss	\$	(2,556,000)	\$	(3,164,000)	
Interest expense		350,000		314,000	
Interest income		(2,000)		(6,000)	
Depreciation		36,000		117,000	
Amortization		1,026,000		1,026,000	
Pro Forma EBITDA	\$	(1,146,000)	\$	(1,713,000)
