U.S. Auto Parts Network, Inc. Reports Fourth Quarter Results

-- Net sales \$77.2 million.

-- Adjusted EBITDA \$1.9 million.

-- Gross margin 30.8%.

CARSON, Calif., March 1, 2012 /PRNewswire/ -- U.S. Auto Parts Network, Inc. (NASDAQ: PRTS), one of the largest online providers of automotive aftermarket parts and accessories, today reported net sales for the fourth quarter ended December 31, 2011 of \$77.2 million compared with Q4 2010 net sales of \$80.5 million. Q4 2011 net loss was \$7.0 million or \$0.23 per share, compared with Q4 2010 net loss of \$2.9 million or \$0.10 per share. Excluding a non-cash write-down of intangibles related to the J.C. Whitney tradename of \$3.4 million (net of a \$1.7 million tax benefit), the net loss for Q4 2011 was \$3.6 million or \$0.12 per share. The Company generated Adjusted EBITDA of \$1.9 million for the quarter compared to \$4.3 million for Q4 2010. For further information regarding Adjusted EBITDA, including a reconciliation of Adjusted EBITDA to net loss, see non-GAAP Financial Measures below.

For the fiscal year 2011, the Company generated net sales of \$327.1 million, compared with \$262.3 million for fiscal 2010, representing an increase of 25%. Excluding \$83.4 million and \$39.1 million of net sales from J.C. Whitney in fiscal 2011 and 2010, respectively, our net sales for fiscal 2011 and 2010 were \$243.7 million and \$223.2 million, respectively, for an increase of 9% over the prior year. Net loss for fiscal 2011 was \$15.1 million, or \$0.50 per share, which included a non-cash write-down of intangibles and restructuring charges related to J.C. Whitney of \$3.4 million (net of a \$1.7 million tax benefit) and \$7.4 million, respectively, and \$0.5 million of legal expenses to protect our intellectual property. This compares to a net loss of \$13.9 million, or \$0.46 per share for fiscal 2010, which includes \$3.1 million of restructuring charges related to J.C. Whitney, and \$2.3 million of legal expenses to protect intellectual property. Earnings per share for fiscal 2011 and 2010 also includes amortization expense related to intangibles of \$3.7 million or \$0.12 per share and \$2.8 million or \$0.09 per share, respectively. We generated Adjusted EBITDA of \$16.3 million in fiscal 2011 compared to \$19.5 million in fiscal 2010. Adjusted EBITDA excludes share-based compensation expense of \$2.6 million in fiscal 2011 and \$2.7 million in fiscal 2010.

"Although 2011 was a challenging year, we believe the foundation laid during this period will set US Auto Parts up to compete in 2012 and beyond," stated Shane Evangelist.

Q4 2011 Financial Highlights

- Net sales for Q4 2011 decreased by 4.0% from Q4 2010. Online sales represented 92.4% of Q4 2011 net sales compared to 92.7% in Q4 2010. The decrease in online

sales was primarily attributable to a decline in revenue capture of 81.4% in Q4 2011 versus 85.0% in Q4 2010 as well as a lower average order value of \$115 in Q4 2011 compared to \$122 in Q4 2010. We experienced a lower conversion rate in Q4 2011 which was partially offset by an increase in visitors.

- Gross margin declined 330 basis points to 30.8% of net sales during Q4 2011 compared to 34.1% in Q4 2010. Gross margin was unfavorably impacted by increased competition in the marketplace and higher freight expense partially offset by a higher penetration of our private label engine and accessory business.
- Online advertising expense, which includes catalog costs, was \$6.9 million or 9.6% of internet net sales for Q4 2011, compared to \$7.0 million or 9.4% of internet net sales in Q4 2010. Marketing expense, excluding online advertising expense, was also \$6.9 million or 9.0% of net sales for Q4 2011, compared to \$6.3 million or 7.8% of net sales in Q4 2010. The increase in marketing expense was primarily due to higher amortization from software deployments and additional marketing services.
- General and administrative expense was \$6.2 million or 8.1% of net sales for Q4 2011 which includes \$0.8 million of integration expenses for J.C. Whitney. Excluding integration expenses, Q4 2011 general and administrative expense was \$5.4 million or 7.0% of net sales. General and administrative expense was \$8.3 million or 10.4% of net sales for Q4 2010 which includes \$1.5 million of integration expenses for J.C. Whitney. Excluding integration expenses, Q4 2010 general administrative expense was \$6.8 million or 8.5%. This decrease was primarily due to lower rent and legal expense.
- Fulfillment expense was \$5.1 million or 6.6% of net sales in Q4 2011, up from \$4.7 million or 5.8% of net sales in Q4 2010. This increase was primarily due to additional depreciation and amortization expense.
- Technology expense was \$1.7 million or 2.3% of net sales in Q4 2011, down from \$2.1 million or 2.6% of net sales in Q4 2010. This decrease was primarily due to lower computer support and payroll expense.
- Capital expenditures for Q4 2011 were \$3.2 million, which included \$2.8 million of software costs related to the J.C. Whitney integration.

Cash and cash equivalents and investments were \$13.6 million and debt was \$17.9 million at December 31, 2011. The Company includes \$2.1 million of auction rate preferred securities in investments. Cash and cash equivalents and investments decreased by \$9.2 million over the previous fourth quarter primarily from \$14.3 million of capital expenditures and \$6.1 million pay down of long-term debt.

Non-GAAP Financial Measures

Regulation G, "*Conditions for Use of Non-GAAP Financial Measures*" and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest income (expense), net; (b) income tax provision (benefit); (c) amortization of intangibles and impairment loss; (d) depreciation and amortization; (e) share-based compensation expense; (f) legal cost to enforce intellectual property rights and (g) restructuring costs related to the J.C. Whitney acquisition.

The Company believes that this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measure reflect an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as a measure of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of items not directly resulting from core operations. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; for evaluating the effectiveness of operational strategies; and for evaluating the Company's capacity to fund capital expenditures and expand its business. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the overall operating performance of companies in our industry. Additionally, lenders or potential lenders use Adjusted EBITDA to evaluate the Company's ability to repay loans.

This non-GAAP financial measure is used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.

The table below reconciles net loss to Adjusted EBITDA for the periods presented (in thousands):
