Security Description:

The goal of this section is to provide a clear understanding of the material rights and privileges of the securities issued by the company. Please provide the below information for each class of the company's equity securities, as applicable:

1. For common equity, describe any dividend, voting and preemption rights.

Holders of shares of common stock have the right to vote on matters brought before the shareholders as required by law, right to receive dividends as determined by the board of directors, and no pre-emptive rights.

2. For preferred stock, describe the dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.

Series A Preferred Stock

10,000,000 shares of the Company's preferred stock have been designated as "Series A Preferred Stock." Shares of Series A Preferred Stock rank pari passu with the Company's Common Stock with respect to dividend and liquidation rights. Additionally, each share entitles the holder to 5 votes.

Series B Preferred Stock

10,000 shares of the Company's preferred stock have been designated as "Series B Preferred Stock." Shares of Series B Preferred Stock rank pari passu with the Company's Common Stock with respect to dividend and liquidation rights. Additionally, each share is convertible into the number of shares of Common Stock equal to 0.1% of the total number of common shares outstanding at the time of conversion. Voting rights are based on the same formula.

Series C Preferred Stock

300,000 shares of the Company's preferred stock have been designated as "Series C Preferred Stock." Shares of Series C Preferred Stock rank pari passu with the Company's Common Stock with respect to dividend and liquidation rights. Additionally, each share is convertible into the number of common shares equal to the FMV of the common stock divided by \$1.00. The shares do not have any voting rights.

Series D Preferred Stock

999 shares of the Company's preferred stock have been designated as "Series D Preferred Stock." Shares of Series D Preferred Stock rank pari passu with the Company's Common Stock with respect to dividend and liquidation rights. Additionally, each share is convertible into the number of shares of Common Stock equal to 0.01% of the total number of common shares outstanding at the time of conversion. The shares do not have any voting rights.

3. Describe any other material rights of common or preferred stockholders.

None

4. Describe any material modifications to rights of holders of the company's securities that have occurred over the reporting period covered by this report.

None

3) Issuance History

*The goal of this section is to provide disclosure with respect to each event that resulted in any changes to the total shares outstanding of any class of the issuer's securities **in the past two completed fiscal years and any subsequent interim period.***

Disclosure under this item shall include, in chronological order, all offerings and issuances of securities, including debt convertible into equity securities, whether private or public, and all shares, or any other securities or options to acquire such securities, issued for services. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 – NATURE OF THE ORGANIZATION AND BUSINESS

Flora Exchange Agreement

On November 18, 2022 (“Flora Closing Date”), Mogul Energy International, Inc. (“MGUY”), a Delaware corporation formed on July 25, 2005, entered into a Plan of Exchange dated as of such date (the “Flora Exchange Agreement”) with Florida Beauty Flora, Inc., a Florida corporation, Florida Beauty Express, Inc., a Florida corporation, Tempest Transportation, Inc., a Florida corporation, and Floral Logistics of California, Inc., a California corporation, collectively “Flora”, and all of the shareholders of Flora. Pursuant to the Flora Exchange Agreement, MGUY acquired one hundred percent (100%) of the issued and outstanding shares of stock of Flora from the shareholders pursuant to which Flora became wholly owned subsidiaries of MGUY. In accordance with the terms of the Flora Exchange Agreement, and in connection with the completion of the acquisition, on the Flora Closing Date MGUY issued 10,000 shares of its series B preferred stock and 350,000,000 shares of its common stock to the Flora Shareholders. Additionally, MGUY exchanged 10,000,000 shares of its series A preferred stock for 300,000 shares of its series C preferred stock.

As a result of Flora shareholders obtaining a controlling interest in MGUY, former management of Flora assuming the key management positions of MGUY, and due to the relative size of Flora being significantly larger than MGUY, for financial statement reporting purposes, the asset acquisition has been treated as a reverse acquisition with Flora deemed the accounting acquirer and MGUY deemed the accounting acquiree under the acquisition method of accounting in accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 805-10-55. The reverse acquisition is deemed a capital transaction and the net assets of Flora (the accounting acquirer) are carried forward to MGUY (the legal acquirer and the reporting entity) at their carrying value before the acquisition. The acquisition process utilizes the capital structure of MGUY and the assets and liabilities of Flora which are recorded at their historical cost.

Nature of the Business

The Company provides refrigerated trucking and logistics services to companies in floral, plant, food, and other industries that require specialization in time-sensitive, temperature control segments of the supply chain.

The accompanying consolidated financial statements include the accounts of the Company, and its subsidiaries.

Going Concern

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern, which contemplates, among other things, the realization of assets and satisfaction of liabilities in the normal course of business. The Company has historically incurred losses from operations and has significant negative working capital. These matters, among others, raise substantial doubt about the Company’s ability to continue as a going concern.

The Company’s ability to continue in existence is dependent on its ability to develop additional sources of capital, and/or achieve profitable operations and positive cash flows. Management’s plans with respect to operations include continuing to increase revenues, closely monitoring expenses, and raising additional capital through sales of equity or debt securities as may be necessary to pursue its business plans and sustain operations until such time as the Company can achieve sustained profitability. However, there can be no assurance that management will be successful in obtaining additional funding or in attaining profitable operations. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

MOGUL ENERGY INTERNATIONAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant inter-company transactions and balances have been eliminated in consolidation.

Reclassifications

In preparing the current period financial statements certain amounts in prior periods have been reclassified to conform to the current period presentation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments and other short-term investments with a maturity of three months or less, when purchased, to be cash equivalents. There were no cash equivalents as of June 30, 2024 and December 31, 2023.

The Company maintains its cash balances at financial institutions that are insured by the Federal Deposit Insurance Corporation (“FDIC”). The FDIC provides coverage of up to \$250,000 per depositor, per financial institution, for the aggregate total of depositors’ interest and non-interest-bearing accounts. From time to time the Company’s cash balances may be in excess of FDIC limits. The Company has not experienced any losses on these accounts and management does not believe that the Company is exposed to any significant risks.

Accounts Receivable

Accounts receivable consist of invoiced and unpaid sales. The Company records an allowance for doubtful accounts to allow for any amounts that may not be recoverable, which is based on an analysis of the Company’s prior collection experience, customer creditworthiness, and current economic trends. Accounts are considered delinquent when payments have not been received within the agreed upon terms and are written off when management determines that collection is not probable.

As of June 30, 2024 and December 31, 2023, the Company’s allowance for doubtful accounts was \$826,000.

The Company has a factoring agreement with RTS Financial Services, Inc. (the “Factor”). Within the factoring agreement, it is established that the Factor’s fee payable on each account shall consist of: (i) an initial fee equal to three quarters of one percent (0.75%) of the net amount of the account and deducted on the date of the advance of the initial payment to the Company, and (ii) beginning on the 61st day from the advance date, until the account has been paid in full, a daily fee in an amount equal to (0.025%) shall be charged on the full net amount of the account.

Inventory

Inventory consists of supplies purchased for the use of repairing vehicles. The supplies are purchased as needed, at which point the repair supplies are recorded at their cost as inventory, and then expensed accordingly as used up within the repairs. The supplies are capitalized so that management can better trace the repair costs back to their corresponding repairs.

Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets consist of insurance, truck registration, and security deposits held with insurance companies. Insurance and truck registration costs are capitalized, and amortized as their economic benefits are utilized. Security deposits are capitalized until returned to the Company.

MOGUL ENERGY INTERNATIONAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Property and Equipment

The Company's property and equipment is being depreciated on a straight-line basis.

Impairment Assessment

The Company evaluates long-lived assets for possible impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. This includes but is not limited to significant adverse changes in business climate, market conditions or other events that indicate an asset's carrying amount may not be recoverable. Recoverability of these assets is measured by comparing the carrying amount of each asset to the future cash flows the asset is expected to generate. If the cash flows used in the test for recoverability are less than the carrying amount of these assets, the carrying amount of such assets is reduced to fair value.

Revenue Recognition

The Company recognizes revenues from the service of providing transportation for goods and presents them on the Company's Combined Statements of Operations. The Company enters into contracts with customers to transport goods on the customers' behalf. Revenue on these contracts is recognized in accordance with the five-step revenue recognition model prescribed in FASB ASC 606, "Revenue from Contracts with Customers." Specifically, revenue is recognized when the Company's performance obligations under these contracts are satisfied, which generally occurs with the transfer of goods to the purchaser. Control is generally considered transferred when the following criteria are met: (i) transfer of physical custody, (ii) transfer of title, (iii) transfer of risk of loss and (iv) relinquishment of any repurchase rights or other similar rights. For the service of delivering flowers and produce, the Company bills the customer once the load leaves Miami, and revenue is recognized at such time. For the service of delivering all other goods picked up around the United States and delivered for a customer, the Company bills the customer once we receive a completed Proof of Delivery from the driver, and revenue is recognized at such time. The rates and other costs are determined under the contract, on a contract-by-contract basis.

Financial Instruments

The Company's financial instruments include cash and cash equivalents, receivables, payables, and debt and are accounted for under the provisions of ASC Topic 825, "Financial Instruments". The carrying amount of these financial instruments as reflected in the balance sheets approximates fair value.

Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, penalties and other sources are recorded when management assesses that it is probable that a liability has been incurred and the amount can be reasonably estimated.

Income Taxes

Prior to November 18, 2022, the Company elected to be an "S" Corporation under the Internal Revenue Code. In lieu of corporate income taxes, the shareholders on an S Corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in the financial statements prior the November 18, 2022.

Beginning on November 18, 2022, in accordance with FASB ASC Topic 740, "Income Taxes," the Company provides for the recognition of deferred tax assets if realization of such assets is more likely than not. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

MOGUL ENERGY INTERNATIONAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In addition, the Company's management performs an evaluation of all uncertain income tax positions taken or expected to be taken in the course of preparing the Company's income tax returns to determine whether the income tax positions meet a "more likely than not" standard of being sustained under examination by the applicable taxing authorities. This evaluation is required to be performed for all open tax years, as defined by the various statutes of limitations, for federal and state purposes. If the Company has interest or penalties associated with insufficient taxes paid, such expenses are reported in income tax expense.

Basic and Diluted Loss Per Share

FASB ASC Topic 260, "Earnings Per Share", requires a reconciliation of the numerator and denominator of the basic and diluted earnings (loss) per share ("EPS") computations.

Basic earnings (loss) per share are computed by dividing income available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share is computed similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

The Company had potential additional dilutive securities outstanding at June 30, 2024 and December 31, 2023 as follows.

	June 30, 2024	December 31, 2023
Series B Preferred Shares	5,255,472,030	5,255,472,030
Series C Preferred Shares	2,205,882	2,205,882
Series D Preferred Shares	52,502,166	52,502,166

Recently Issued Accounting Standards

During the period ended June 30, 2024, there were several new accounting pronouncements issued by the FASB. Each of these pronouncements, as applicable, has been or will be adopted by the Company. Management does not believe the adoption of any of these accounting pronouncements has had or will have a material impact on the Company's consolidated financial statements.

Subsequent Events

The Company has evaluated all transactions through the date the consolidated financial statements were issued for subsequent event disclosure consideration.

NOTE 3 – COMMITMENTS AND CONTINGENCIES

From time to time, the Company may be involved in litigation in the ordinary course of business. The Company is not currently involved in any litigation that the Company believes could have a material adverse effect on its financial condition or results of operations, except as noted below.

The Company is defendant in an eviction suit wherein a prior landlord is seeking damages against the Company. The Company sees its maximum exposure in the form of backed rent to be less than \$75,000 exclusive of late fees, interest, or attorney fees, and feels that its counterclaims can offset that number. Interest fees, given an appeal and the large firm opposed to the Company may be substantial, ranging from \$100,000 to \$250,000.

NOTE 4 – GUARANTOR OF DEBT

The Company previously guaranteed certain liabilities of Optimized Leasing, Inc. ("Optimized"), a related party who filed Chapter 11 Bankruptcy during 2021. At December 31, 2023, the liabilities of Optimized guaranteed by the Company totaled approximately \$4,370,000. During the year ended December 31, 2023, the Company made payments on behalf of Optimized totaling \$353,418.

The Company expects similar payments in 2024. Accordingly, the Company has recorded contingent liabilities totaling \$154,133 and \$246,582 related to the guarantees as of June 30, 2024 and December 31, 2023, respectively.
