SAXON CAPITAL GROUP INC.
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

Saxon Capital Group Inc. (“Saxon”, “we”, “our” or “the Company”) was incorporated in the State of Nevada on November 12, 2003 under the name Comlink Communications. On May 18, 2015, the Company changed its name to Saxon Capital Group Inc. The Company has established a fiscal year end of December 31.

In July 2021, the Company entered into non-binding a letter of intent to acquire Saf-Glas who, using proprietary, patented Nano Technology, has developed an optically clear glass that produces continuous electricity from sunlight, diffused and ambient light, and ground reflectance.

In September 2022, Saxon Capital Group acquired exclusive worldwide rights to manufacture and sell EnergyGlass™ Architectural Glass products, which can be used for buildings, greenhouses, homes, etc. EnergyGlass™ is an alternative energy, patented, optically clear electric producing glass technology that produces continuous energy from sunlight and diffused and ambient light.

The Company plans to change the corporate name to Energy Glass Solar, subject to shareholder and FINRA clearance. In consideration for the exclusive worldwide license and transfer of specialized equipment, Saxon forgave \$535,000 in indebtedness owing to it by Saf-Glas and issued Saf-Glas 30 million shares of Saxon, a controlling interest. A new management group and Board of Directors will be announced shortly. As part of the agreement, Saxon is obligated to purchase the EnergyGlass™ Architectural Glass Products patented technology upon the additional raise of \$10 million, at which time Saf-Glas will be issued additional shares of Saxon such that it will own 80% of the issued and outstanding shares of Saxon, after giving effect to the foregoing transactions.

Cash and Cash Equivalents

The Company considers all highly liquid short-term investments with a maturity of three months or less at time of purchase to be cash equivalents. There were no cash equivalents as of June 30, 2024 and December 31, 2023.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

We account for income taxes in accordance with FASB ASC Topic 740, *Income Taxes*, using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of assets and liabilities and their respective tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

FASB ASC Topic 740, *Income Taxes*, requires us to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, we must measure the tax position to determine the amount to recognize in our consolidated financial statements. We performed a review of our material tax positions in accordance with recognition and measurement standards established by ASC Topic 740 and concluded we had no unrecognized tax benefit that would affect the effective tax rate if recognized for the three and six months ended June 30, 2024 and the year ended December 31, 2023.

We include interest and penalties arising from the underpayment of income taxes, if any, in our consolidated statements of operations in general and administrative expenses. As of June 30, 2024 and December 31, 2023, we had no accrued interest or penalties related to uncertain tax positions.

Loss Per Share

The basic computation of loss per share is based on the weighted average number of shares outstanding during the period presented in accordance with ASC 260, "Earnings Per Share". The computation of diluted earnings per common share is based on the weighted average number of shares outstanding during the period plus the common stock equivalents which would arise from the exercise of stock options and warrants outstanding using the treasury stock method and the average market price per share during the period. Common stock equivalents are not included in the diluted earnings per share calculation when their effect is antidilutive.

Property and Equipment

Property and equipment are recorded at cost, less accumulated depreciation. Depreciation is calculated using the straight-line method over the related assets' estimated useful lives. Equipment, furniture and fixtures are being amortized over a period of five years.

Expenditures that materially increase asset life are capitalized, while ordinary maintenance and repairs are expensed as incurred.

Fair Value of Financial Instruments

The fair value of the Company's financial instruments, which consist primarily of cash and cash equivalents and accounts payable and accrued liabilities, approximate their carrying amounts reported due to their short-term nature.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist of cash accounts in a financial institution which, at times may exceed the Federal depository insurance coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

Concentration of Payables

Significant Vendors are those which represent more than 10% of the Company's accounts payable balance as of each respective balance sheet date. For each significant vendor, payables as a percentage of total accounts payable are as follows:

Vendor	Accounts Payable	
	June 30, 2024	December 31, 2023
Vendor A	28%	61%
Vendor B	-%	25%
Vendor C	-%	14%
Vendor D	29%	-%
Vendor E	22%	-%
Vendor F	21%	-%

Going Concern Risk

As of June 30, 2024, the Company had accumulated losses of \$4,995,281 and working capital of \$291,748. The Company is currently in the pre-revenue stages of its business operations with only limited operating history. These factors may raise substantial doubt about the Company's ability to continue as a going concern for a period of one year from the issuance of these financial statements. The accompanying financial statements do not include any adjustments that might be required should the Company be unable to recover the value of its assets or satisfy its liabilities.

Recent Accounting Pronouncements

Management does not believe there would have been a material effect on the accompanying financial statements had any recently issued, but not yet effective, accounting standards been adopted in the current period.

Impact of the COVID-19 Pandemic

The Company's operations may be affected by the recent and ongoing outbreak of the coronavirus disease 2019 (COVID-19) which was declared a pandemic by the World Health Organization in March 2020. The ultimate disruption which may be caused

by the outbreak is uncertain; however, it may result in a material adverse impact on the Organization’s financial position, operations and cash flows.

The Company evaluates its intangible assets for impairment on an annual basis or whenever events or circumstances indicate that an impairment may have occurred in accordance with the provisions of ASC 350, “Goodwill and Other Intangible Assets” (“ASC 350”). The Company reviewed for impairment and determined that no impairment indicators exist as of June 30, 2024.
