House Committee on Transportation and Infrastructure

The Congressional Budget Act of 1974 requires the Congressional Budget Office, to the extent practicable, to prepare estimates of the budgetary effects of legislation ordered reported by Congressional authorizing committees. In order to provide the Congress with as much information as possible, the attached table summarizes information about the estimated direct spending and revenue effects of some of the legislation that has been ordered reported by the **House Committee on Transportation and Infrastructure** during the 118th Congress. The legislation listed in this table generally would have small effects, if any, on direct spending or revenues, CBO estimates. Where possible, the table also provides information about the legislation's estimated effects on spending subject to appropriation and on intergovernmental and private-sector mandates as defined in the Unfunded Mandates Reform Act.

Budgetary Effects After 2034 No	Mandates Yes	Contact Lilia Ledezma
	of 2023 H.R. 1586 would authorize federal, state, local, and tribal firefighting agencies to use approved fire retardants to prevent and suppress wildfires without first obtaining a National Pollutant Discharge Elimination System permit. The bill also would prohibit state courts from issuing injunctions against state or tribal entities' dispersal of aerial fire retardants as part of wildfire suppression or control. CBO estimates that enactin H.R. 1586 would not affect direct spending or revenues. CBO has not estimated the bill's effects on spending subject to appropriation. The bill would impose an intergovernmental mandate as defined in the Unfunded Mandates Reform Act (UMRA) that would not exceed the annual threshold established in UMRA (\$100 million in 2024, adjusted annually for inflation). The bill contains no private-sector mandates as defined in UMRA.										
H.R. 1720	Ocean Pollution Reduction Act II	Ordered reported	09/18/24	300	0	0	Not estimated	No	No	No	Aurora Swanson
	Discharge Elimination	ow the Point Loma Waste on System if plant meets of appropriation. The bill cor	ertain conditio	ns specified i	n the bill. CBO estimate	es that enacting H.R. 17	20 would not affect	ct direct spending

H.R. 3988	ARTICLE ONE Act	Ordered reported	09/18/24	800	Between -\$500,000 and zero	0	Not estimated	Yes	No	No	Kelly Durand
	H R 3088 would am	end the National Emerge	ncies Act to lim	it to 30 days	the duration of any nat	ional emergency declare	ad hy the Presiden	t unless the Cond	arace cubeanuantly	, annroves or	extends the declaration

H.R. 3988 would amend the National Emergencies Act to limit to 30 days the duration of any national emergency declared by the President unless the Congress subsequently approves or extends the declaration. The bill also would require the President to report to the Congress periodically on the need for and status of declared emergencies. CBO cannot predict the number or timing of future declarations but expects that most would be approved by the Congress. Under H.R. 3988 emergency declarations could have a shorter duration than under current law. If that happens direct spending related to such emergencies would decline; CBO estimates any reduction in direct spending would be insignificant. CBO estimates that enacting the bill would not affect revenues. CBO has not estimated the bill's effects on spending subject to appropriation. The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act.

H.R. 7671	Disaster Management Costs Modernization Act	Ordered reported	09/25/24	450	0	0	Not estimated	No	No	No	Jon Sperl

H.R. 7671 would allow state and local governments that receive disaster assistance from the Federal Emergency Management Agency to repurpose unused funds that originally were allocated for management costs. State and local governments could use the funds to increase their administrative capacity to prepare for, recover from, or mitigate the effects of disasters. Under current law, unused funds are returned to the Disaster Relief Fund. Under the bill, those governments could retain unused funds for up to five years for disasters that are declared on or after the bill's enactment date. CBO estimates that enacting H.R. 7671 would not affect direct spending or revenues. CBO has not estimated the bill's effects on spending subject to appropriation. The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act.

H.R. 8995	Baby Changing on Board Act	Ordered reported	09/18/24	400	0	0	0	No	No	Yes	Kelly Durand

H.R. 8995 would require Amtrak trains purchased after the bill's enactment to include baby-changing tables in all train restrooms that are subject to the requirements of the Americans With Disabilities Act of 1990. Because Amtrak is considered a nonfederal entity, CBO estimates that enacting H.R. 8995 would have no effect on the federal budget. The bill would impose a private-sector mandate as defined in the Unfunded Mandates Reform Act (UMRA) that would not exceed the threshold established in UMRA (\$200 million in 2024, adjusted annually for inflation). The bill contains no intergovernmental mandates as defined in UMRA.

H.R. 9024	Extreme Weather and Heat Response Modernization Act	Ordered reported	09/18/24	450	0	0	Not estimated	No	No	No	Jon Sperl
	H.R. 9024 would require the Federal Emergency Management Agency (FEMA) to issue guidance for disaster relief programs concerning extreme-temperature events and to consider innovative preparedness and mitigation projects for such disasters in its grantmaking. The bill also would require FEMA to convene an advisory panel to review the definition of incident periods for extreme-temperature events and to issue regulations revising those periods. Finally, the bill would require FEMA to study the effects of extreme-temperature disasters, develop guidance and best practices for responding to such events, and report to the Congress. CBO estimates that enacting H.R. 9024 would not affect direct spending or revenues. CBO has not estimated the bill's effects on spending subject to appropriation. The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act.										
H.R. 9313	Think Differently About Building Accessibility Act	Ordered reported	09/18/24	800	0	0	Between zero and \$500,000	No	No	No	Matthew Pickford

H.R. 9591	A bill to require the Administrator of General Services to sell certain property related to United States Penitentiary, Leavenworth, and for other purposes	Ordered reported	09/18/24	800	Between -\$500,000 and zero	0	Not estimated	No	No	No	Emma Uebelhor
	H.R. 9591 would require the General Services Administration (GSA) to sell any property in the State of Missouri associated with the Federal Correctional Institution, Leavenworth, which is located in Kansas. Net proceeds from the sale would be deposited into the Federal Buildings Fund and recorded in the budget as offsetting receipts (that is, as reductions in direct spending). Using information from GSA, CBO estimates that the property could be sold for about \$500,000; therefore, CBO estimates that enacting H.R. 9591 would decrease direct spending by an insignificant amount. CBO estimates that enacting the bill would not affect revenues. CBO has not estimated the bill's effects on spending subject to appropriation. The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act.										
H.R. 9750	Natural Disaster Recovery Program Act of 2024	Ordered reported	09/25/24	450	0	0	Not estimated	No	No	No	Jon Sperl

H.R. 9750 would create a Natural Disaster Recovery Fund, to be administered by the Federal Emergency Management Agency, from which the agency would make grants to state and tribal governments to cover unmet needs following major disasters. Those governments would determine how funds are spent. The bill also would expand the availability of disaster assistance for housing repairs and require several reports related to disaster recovery programs. CBO estimates that enacting H.R. 9750 would not affect direct spending or revenues. CBO has not estimated the bill's effects on spending subject to appropriation. The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act.
