Transmittal No. 24-34

## **Norway – M1156A1 Precision Guidance Kits Fuzes**

WASHINGTON, December 17, 2024 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Norway of M1156A1 Precision Guidance Kits Fuzes and related equipment for an estimated cost of \$130 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Norway has requested to buy eight thousand one (8,001) M1156A1 Precision Guidance Kit (PGK) multi-option fuzes that will be added to a previously implemented case whose value was under the congressional notification threshold. The original Foreign Military Sales (FMS) case, valued at \$2.79 million, included PGK cutaway models; fuze wrenches; enhanced portable inductive artillery fuze setters; GPS antennae and cables; improved Platform Integration Kits; PGK-associated hardware for testing; labor support; training aids; technical data and reports; U.S. Government technical assistance; incidental travel; transportation; PGK spare parts; equipment training; and related elements of logistics and program support. This notification is for eight thousand one (8,001) M1156A1 PGK multi-option fuzes. The following non-MDE items will also be included: PGK cutaway models; fuze wrenches; enhanced portable inductive artillery fuze setters; GPS antennae and cables; improved Platform Integration Kits; PGK-associated hardware for testing; labor support; training aids; technical data and reports; U.S. Government technical assistance; incidental travel; transportation; PGK spare parts; equipment training; and related elements of logistics and program support. The estimated total program cost is \$130 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a NATO Ally that is an important force for political stability and economic progress in Europe.

The proposed sale will improve Norway's capability to meet current and future threats and enhance its interoperability with U.S. and other allied forces. This proposed sale will enhance Norway's artillery and mid-range fire capability. Norway will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Northrop Grumman Innovation Systems, located in Dulles, VA. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Norway.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
