Transmittal No. 24-83

Singapore – AIM-120C-8 Advanced Medium Range Air-to-Air Missiles

WASHINGTON, September 9, 2024 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Singapore of AIM-120C-8 Advanced Medium Range Air-to-Air Missiles and related equipment for an estimated cost of \$133 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Singapore has requested to buy fifty-four (54) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM) and two (2) AIM-120C-8 AMRAAM guidance sections. The following non-MDE items will also be included: AMRAAM control section spares, missile containers, and support equipment; Common Munitions Built-In-Test (BIT)/Reprogramming Equipment (CMBRE); ADU-89/E Adapter Group Computer Test Set; spare parts, consumables and accessories, and repair and return support; weapon system support and software, and classified software delivery and support; classified and unclassified publications and technical documentation; training support and equipment; studies and surveys; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$133 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a strategic partner that is an important force for political stability and economic progress in Asia.

The proposed sale will meet Singapore's need to maintain operational readiness and interoperability with U.S. and coalition forces. This sale increases Singapore's effectiveness in both training and combat operations and contributes to stability and deterrence in the Indo-Pacific region. Singapore will have no difficulty absorbing these weapons into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be RTX Corporation, located in Tucson, AZ. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military-Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
