

Fatality Alert

MINE FATALITY – On September 18, 2024, a miner died when a front-end loader struck him after he exited his truck.

Best Practices

- When approaching mobile equipment, communicate your intended movements with equipment operators and ensure they acknowledge your presence.
- Wear high-visibility clothing when working around mobile equipment.
- Truck drivers should not exit their trucks during loading.
- Be aware of the location and traffic patterns of mobile equipment in your work area.
- Train miners in the safe operation of mobile equipment in accordance with the manufacturer's manual.

This is the 21st fatality reported in 2024, and the tenth classified as “Powered Haulage.”

The information provided in this notice is based on preliminary information only and does not represent final determinations regarding the nature of the accident or conclusions regarding the cause of the fatality.
