There can be no assurance that this capital will be available and if is not, the Company may be forced to substantially curtail or cease operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation:

The consolidated financial statements include the accounts of QOEG and its subsidiaries and have been prepared in accordance with generally accepted accounting principles ("GAAP"). All material intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Financial Statements in U.S. dollars:

The reporting currency of the Company is the U.S. dollar ("dollar"). The dollar is the functional currency of the Company and the Company's U.S. subsidiary. The financial statements of the non-US subsidiaries are translated to U.S. dollars using the methods mandated by ASC 830.

Cash and Cash Equivalents:

The Company considers all highly liquid investments originally purchased with maturities of three months or less to be cash equivalents. These financial statements have not been subjected to an audit or review or compilation engagement, and no assurance is provided on them.

Revenue Recognition:

The Company recognizes revenues when persuasive evidence of an arrangement exists, delivery has occurred or services rendered, the sales price of fee is fixed or determinable, and its collectability is reasonably assured.

The Company records stock-based compensation in accordance with the ASC 718 "Shares-Based Compensation" FASB Accounting Standards Classification using the fair value method. All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. Equity instruments issued to employees and the cost of the services received as consideration are measured and recognized based on the fair value of the equity instruments issued.

Foreign Currency:

The Company translates the financial statements of our foreign subsidiaries from the local (functional) currencies to U.S. dollars. The rates of exchange at each fiscal year end are used for translating the assets and liabilities and the average monthly rates of exchange for each year are used for the consolidated statements of operations and comprehensive loss. Gains or losses resulting from the translation of the foreign subsidiaries' financial statements are included in the accompany consolidated balance sheets as a separate component of stockholder's equity.
