

4th October 2021

dorsaVi appoints Troy Di Domenico as CFO

Melbourne, Australia, 4th October 2021: dorsaVi (ASX: DVL) (**dorsaVi** or the **Company**) is pleased to announce the appointment of Mr Troy Di Domenico as Chief Financial Officer, effective as of 4th October 2021. Mr Di Domenico will replace dorsaVi's current CFO, Damian Connellan and will help drive the Company forward with proven international experience across technology, healthcare, finance and operations.

Prior to joining dorsaVi, Mr Di Domenico was Head of Health Operations at Hills Health Solutions, where he was responsible for the main operations of the business. His previous roles include Group Financial Controller at PageUp, where he helped evolve operations and finance into a best practice business partnering capability, maximising performance across Australia, Singapore, the US and UK. He has also had prior experience across several senior roles in operations and finance for both ASX listed and US-based organisations.

Dr Andrew Ronchi, dorsaVi's Chief Executive Officer, commented:

"We are very excited to welcome Troy to the dorsaVi team. His invaluable international experience and proven capabilities across multiple geographies, is pivotal for the Company as we look to grow. Troy's experience includes senior positions in both operations and finance, and we look forward to leveraging both as he initially enhances the finance team with a more technological lens, before transitioning into a joint CFO and COO role. I would also like to take this opportunity to thank Damian Connellan for his significant contribution to dorsaVi during his time as CFO over the last 6 years. Damian's work has helped shape the Company and we wish him all the very best for the future."

dorsaVi looks forward to leveraging Mr Di Domenico's international experience, in combination with industry knowledge in both healthcare and technology companies, to help drive the Company's growth strategy. Mr Di Domenico will commence in the CFO role, with plans to transition into a joint CFO and COO role in the coming months. The adoption of a joint role is made possible by Mr Di Domenico's impressive financial and operational experience and the Company is excited to have him on board.

Mr Di Domenico is a Certified Practising Accountant with a bachelor's degree in Business and Accounting.

Mr Troy Di Domenico, commented:

"After many years working in the healthcare and technology industries, I view dorsaVi as an excellent opportunity, with an appealing investment profile and large growth potential. I am excited to join dorsaVi at this stage of development and look forward to leveraging my knowledge of SaaS platforms and the US health sector, to elevate the financial capabilities within the Company, while helping to drive growth and adding shareholder value."

About dorsaVi

dorsaVi Ltd (ASX: DVL) is an ASX company focused on developing innovative motion analysis device technologies for use in clinical applications, elite sports, and occupational health and safety. dorsaVi believes its wearable sensor technology enables, for the first time, many aspects of detailed human movement and position to be accurately captured, quantified, and assessed outside a biomechanics lab, in both real-time and real situations for up to 24 hours. dorsaVi's focus is on two major markets:

- **Workplace:** dorsaVi enables employers to assess risk of injury for employees as well as test the effectiveness of proposed changes to OHS workplace design, equipment or methods based on objective evidence. dorsaVi works either directly with major corporations, or through an insurance company's customer base with the aim of reducing workplace compensation and claims. dorsaVi has been used by major corporations including Sodexo, London Underground, Vinci Construction, Crown Resorts, Caterpillar (US), Monash Health, Coles, Woolworths, Toll, Toyota, Orora (formerly Amcor) and BHP Billiton.
- **Clinical:** dorsaVi is transforming the management of patients with its clinical solutions (ViMove, ViMove2 and Professional Suite) which provide objective assessment, monitoring outside the clinic and immediate biofeedback. The clinical market is broken down into physical therapy (physiotherapists), hospital in the home and elite sports. Hospital in the home refers to the remote management of patients by clinicians outside of physical therapy (i.e. for orthopaedic conditions). dorsaVi's Telehealth provides a virtual clinic, enabling clinicians to do business differently and take their patient consultations online. Elite sports refers to the management and optimisation of athletes through objective evidence for decisions on return to play, measurement of biomechanics and immediate biofeedback to enable peak performance.
