

BiomX Announces Voluntary Delisting from the Tel Aviv Stock Exchange

BRANFORD, Conn. and NESS ZIONA, Israel, July 6, 2022 -- BiomX Inc. (NYSE American: PHGE) ("BiomX" or the "Company"), a clinical-stage microbiome company advancing novel natural and engineered phage therapies that target specific pathogenic bacteria, announced today that it is voluntarily delisting its shares of common stock from trading on the Tel Aviv Stock Exchange (the "TASE").

Based upon a review of the recent trading volume of BiomX's common stock on the TASE and the costs associated with maintaining a presence on more than one stock exchange, BiomX's management and its Board of Directors have concluded that it would be in the best interests of shareholders to have BiomX's common stock listed on a single stock exchange.

Under applicable Israeli law, the delisting of BiomX's shares of common stock from trading on the TASE is expected to become effective in three months, on October 6, 2022. During this time, BiomX's shares will continue to be traded on the TASE. Following the delisting of BiomX's shares of common stock on the TASE, BiomX's shares will continue to be listed on the NYSE American and all BiomX shares now traded on the TASE are expected to be transferred to the NYSE American where they can continue to be traded.
