Statements that describe the Company's future plans, objectives or goals are also forward-looking statements, which reflect the current views of the Company with respect to future events and are subject to assumptions, risks and uncertainties that could cause actual results to differ materially. Although the Company believes that these forward-looking statements are based upon reasonable assumptions regarding, among other things, the economy, its knowledge of its business, and key performance indicators that impact the Company, these forward-looking statements involve risks, uncertainties and other factors

that may cause actual results to differ materially from those expressed in or implied by the forward-looking statements.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.

The factors that may affect the Company's results include, among others:

- our ability to successfully complete the transactions contemplated by the Exchange Offer, including satisfaction of any conditions prescribed therein;
- the overall impact of the global supply chain complexities on the Company and its business, including delays in sourcing key components as well as longer transport times, especially for container ships and U.S. trucking, given the Company's reliance on suppliers, subcontractors and availability of raw materials and other components;
- the Company's ability to raise necessary equity capital to pay the 2024 Senior Notes at maturity if there is insufficient participation in the Exchange Offer;
- the Company's ability to generate sufficient cash or have sufficient access to capital resources to service its debt, which, if unsuccessful or insufficient, could force the Company to reduce or delay investments and capital expenditures or to dispose of material assets or operations, seek additional debt or equity capital or restructure or refinance its indebtedness;
- the Company's ability to comply with the covenants contained in the agreements governing its debt and to successfully refinance its debt in the future;
- the Company's ability to successfully convert its backlog into sales, including our ability to overcome supply chain and liquidity challenges;
- the ultimate impact of the ongoing COVID-19 pandemic and other public health emergencies, including further adverse effects to the Company's supply chain, maintenance of increased order backlog, and the effects of any COVID-19 related cancellations;
- the Company's ability to successfully meet its cost-reduction goals and continue to achieve benefits from its cost-reduction initiatives and other strategic initiatives, such as the current \$150 million-plus cost savings plan;
- the success of the Company's new products, including its DN Series line and EASY family of retail checkout solutions, and electronic vehicle charging service business;
- the impact of a cybersecurity breach or operational failure on the Company's business;
- the Company's ability to attract, retain and motivate key employees;
- the Company's reliance on suppliers, subcontractors and availability of raw materials and other components;
- changes in the Company's intention to further repatriate cash and cash equivalents and short-term

investments residing in international tax jurisdictions, which could negatively impact foreign and domestic taxes;

- the Company's success in divesting, reorganizing or exiting non-core and/or non-accretive businesses and its ability to successfully manage acquisitions, divestitures, and alliances;
- the ultimate outcome of the appraisal proceedings initiated in connection with the implementation of the Domination and Profit Loss Transfer Agreement with the former Diebold Nixdorf AG (which was dismissed in the Company's favor at the lower court level in May 2022) and the merger/squeeze-out;
- the impact of market and economic conditions, including the bankruptcies, restructuring or consolidations of financial institutions, as well as liquidity issues these institutions may have, which could reduce the Company's customer base and/or adversely affect its customers' ability to make capital expenditures, as well as adversely impact the availability and cost of credit;
- the impact of competitive pressures, including pricing pressures and technological developments;
- changes in political, economic or other factors such as currency exchange rates, inflation rates (including the impact of possible currency devaluations in countries experiencing high inflation rates), recessionary or expansive trends, hostilities or conflicts (including the war between Russia and Ukraine and the tension between the U.S. and China), disruption in energy supply, taxes and regulations and laws affecting the worldwide business in each of the Company's operations;
- the Company's ability to maintain effective internal controls;
- unanticipated litigation, claims or assessments, as well as the outcome/impact of any current/pending litigation, claims or assessments;
- the effect of changes in law and regulations or the manner of enforcement in the U.S. and internationally and the Company's ability to comply with applicable laws and regulations; and
- other factors included in the Company's filings with the U.S. Securities and Exchange Commission (the "SEC"), including its Annual Report on Form 10-K for the year ended December 31, 2022 and in other documents the Company files with the SEC.

Except to the extent required by applicable law or regulation, the Company undertakes no obligation to update these forward-looking statements to reflect future events or circumstances or to reflect the occurrence of unanticipated events.

You should consider these factors carefully in evaluating forward-looking statements and are cautioned not to place undue reliance on such statements.
