

This request is for a set of related interviews to facilitate this research. NOAA will perform interviews with state and local coastal managers, as well as representatives from non-profit organizations, academia, the federal government, and the finance industry. The interviews will collect relevant information from interviewees on their experiences with coastal resilience funding and financing mechanisms, challenges and opportunities related to funding and financing coastal resilience, and technical support needs and opportunities that NOAA can address.

The information provided by interviewees will be synthesized into the needs assessment, which will address needs and information gaps partitioned by region, financial scale, time scale, and scope/sector. The information provided by interviewees will also be used to help inform an inventory of existing entities providing resources for resilience funding, as well as a summary of existing and emerging funding sources and financial tools and mechanisms for coastal resilience. Finally, the interviews will inform recommendations on NOAA's potential niche in addressing the identified needs and gaps.

The resulting research (and any subsequent resources or tools developed by NOAA to address identified gaps) will provide much needed information to NOAA's customers on funding and financing coastal resilience efforts, including available resources and mechanisms, best practices and strategies, real world success stories, and opportunities for technical and financial partnerships with private and public entities.

SUPPLEMENTARY INFORMATION:

Title: Gross Collection of Exchange-Set Margins for Omnibus Accounts (OMB Control No. 3038-0026). This is a request for extension of a currently approved information collection.

Abstract: Commission Regulation 1.58 requires futures commission merchants to collect exchange-set margin for omnibus accounts on a gross, rather than a net, basis. The regulation provides that the carrying FCM need not collect margin for positions traded by a person through an omnibus account in excess of the amount that would be required if the same person, instead of trading through an omnibus account, maintained its own account with the carrying FCM. To prevent abuse of this exception to the regulation, a carrying FCM must maintain a written representation from the originating FCM or foreign broker that the particular positions held in the omnibus account are part of a hedge or spread transaction. This collection of information is necessary in order to provide
