Milan, October 27th, 2021 – Today the Board of Directors of Amplifon S.p.A. (MTA; Bloomberg ticker: AMP:IM), global leader in hearing solutions and services, approved the Interim Financial Report as at September 30th, 2021 during a meeting chaired by Susan Carol Holland.

ENRICO VITA, CEO

“We are extremely satisfied with the outstanding results of the third quarter, characterized by excellent growth in revenues, despite the extremely challenging comparison base, and continuous improvement in profitability compared to 2019, which was not affected by the pandemic. We are also very enthusiastic about the different strategic initiatives we have undertaken and, above all, the opportunities stemming from the Bay Audio integration in Australia and the launch of the Amplifon Product Experience in the core Spanish market. The results achieved in the first nine months allow us to look ahead to closing another year with record results.”

Given the significant impact of the Covid-19 outbreak on the financial results for FY 2020 and in order to allow for greater comparability, the income statement data for 9M and Q3 2019 are also provided in the tables below. In addition, in light of the Board of Directors’ resolution to exit the Elite business, the income statement figures are also shown excluding the contribution of Elite for the reporting and comparison periods. The financial figures including Elite reflect the wind-down currently underway and, therefore, are not very significant. Therefore, unless stated otherwise, the following comments refer primarily to the pro-forma figures without Elite.

(*) EPS adjusted (adjusted net earnings per share) for non-recurring expenses and the amortization of the intangible assets as per the Purchase Price Allocation accounting treatment.

Consolidated revenues amounted to 459.1 million euros in the third quarter of 2021, an increase at constant exchange rates of 19.0% compared to the third quarter of 2019 and of 6.8% compared to the third quarter of 2020. Excluding the contribution of Elite in the quarter and in the comparison periods, revenues were 448.1 million euros, an increase at constant exchange rates of 21.2% compared to the third quarter of 2019 and 8.0% compared to third quarter of 2020 despite the extremely challenging comparison base for both periods. In particular, the third quarter of 2020 benefited from the easing of the severe lockdown measures adopted in the second quarter of 2020. The outstanding performance with respect to 2019, which was not impacted by the pandemic, was driven by a 13.8% organic growth, well above the reference market, while acquisitions contributed for 7.4%. The foreign exchange effect was negative for 2.0% explained by the strengthening of the Euro against the US dollar and the Latin American currencies.

The performance was positive across all regions, despite the extremely challenging comparison base primarily in **EMEA** which posted a solid performance, driven by a strong organic growth recorded mainly in France, Spain and Italy; in the **AMERICAS**, the United States reported once again an excellent, well above market, organic growth, which was combined with the significant contribution of the PJC Hearing acquisition, as well as the outstanding performances in Canada and Latin America; **APAC** recorded a solid, above-market performance, despite the localized lockdowns in Australia and New Zealand.

Recurring **EBITDA** was 94.2 million euros, 23.8% higher than in the third quarter of 2019 and 3.0% lower than in the third quarter of 2020, which benefitted from significant extraordinary income related to the Covid-19 emergency. EBITDA as reported came to 93.0 million euros after non-recurring expenses of 1.2 million euros attributable mainly to the GAES integration and the project for the redefinition of Amplifon S.p.A.'s corporate structure. Excluding the contribution of Elite in the third quarter of 2021 and in the comparison periods, recurring EBITDA amounted to 95.5 million euros, an increase of 30.1% over the third quarter of 2019, with the margin rising 180 basis points against the same period of 2019 to 21.3% even after significant investments in the business. This sizeable improvement in profitability is attributable mainly to the greater operating efficiency stemming from the actions taken in 2020 to face the Covid-19 emergency and was achieved, moreover, after significant investments in the business, including in marketing and the continuation of important strategic initiatives.

Recurring **EBIT** reached 41.6 million euros, 41.9% higher than in the third quarter of 2019 and 13.5% lower than in the third quarter of 2020, which benefitted from significant extraordinary income related to the Covid-19 emergency. EBIT as reported was 38.8 million euros. Excluding the contribution of Elite in the quarter and in the comparison periods, EBIT came to 42.9 million euros, showing an increase of 60.9% over the 26.7 million euros recorded in the same period of 2019. The margin on revenues came to 9.6% compared to 7.1% in the third quarter of 2019.

Recurring **net profit** was 25.7 million euros, 57.3% higher than the 16.3 million euros posted in the third quarter of 2019, thanks to greater operating leverage, and 10.0% lower than in the third quarter of 2020 which benefitted from significant extraordinary income related to the Covid-19 emergency.

Consolidated revenues amounted to 1,418.6 million euros in the first nine months of 2021, an increase at constant exchange rates of 17.7% compared to the first nine months of 2019 and of 37.0% compared to the first nine months of 2020. Excluding the contribution of Elite in the first nine months of 2021 and in the comparison periods, revenues amounted to 1,379.9 million euros, an increase at constant exchange rates of 19.4% compared to the same period of 2019 (thanks to a strong organic growth of 13.3%) and 38.1% compared the same period of 2020. Acquisitions contributed for 6.1% compared to 2019 and for 4.9% compared to the same period of 2020, while the foreign exchange effect was negative due once again to the strengthening of the Euro against the US dollar and the Latin American currencies.

Recurring **EBITDA** was 326.9 million euros, an increase of 24.5% compared to the first nine months of 2019 and of 43.1% compared to the first nine months of 2020. EBITDA as reported came to 321.4 million euros after non-recurring expenses of 5.4 million euros attributable mainly to the GAES integration process and the project for the redefinition of Amplifon S.p.A.'s corporate structure. Excluding the contribution of Elite in the first nine months of 2021 and in the comparison periods, recurring EBITDA was 326.2 million euros, showing an increase of 28.1% over the first nine months of 2019, with the margin rising 190 basis points compared to the same period of 2019 to 23.6%.

This outstanding result is attributable to greater operating leverage. Net profit as reported, which reflects the non-recurring charges of 5.3 million euros, reached 100.7 million euros. The tax rate came to 28.0%, lower than the 28.5% recorded in the 2019 comparison period. The adjusted earnings per share (EPS adjusted) came in at 57.4 euro cents, 32.8% higher than the 43.2 euro cents reported in the same period of 2019 and 104.6% higher than the 28.1 euro cents posted in the first nine months of 2020.

EMEA: Strong top-line performance, despite very challenging comparison base, and outstanding profitability

(Euro millions)	Q3 2021	Q3 2020	Q3 2019	Δ% 21/20	Δ% 21/19
Revenues	310.2	303.2	270.7	+2.3%	+14.6%

In the third quarter **EMEA** posted a strong performance with revenues increasing at constant exchange rates of 14.5% compared the third quarter of 2019 and 2.1% compared to the third quarter of 2020, despite the extremely challenging comparison base for the same period of both 2019 and 2020, which were characterized by exceptional organic growth of more than 11%. Organic growth in the third quarter 2021 was particularly strong in **France, Spain** and **Italy**.

The region posted excellent profitability with the EBITDA margin rising an impressive 400 basis points compared to the same period of 2019 to 25.5%, thanks to greater efficiency post-Covid, improved profitability in Spain and scale reach in core countries.

AMERICAS: Impressive revenue growth continues, boosted by ~+40% well above-market organic growth compared to the third quarter of 2019 and by PJC Hearing acquisition

(Euro millions)	Q3 2021	Q3 2020	Q3 2019	Δ% 21/20	Δ% 21/19

<i>Margin %</i>	<i>25.2%</i>	<i>26.2%</i>	<i>23.7%</i>	<i>-100 bps</i>	<i>+150 bps</i>

The **United States** recorded once again an extraordinary revenue performance, driven by an organic growth of around 40% compared to the third quarter of 2019 (more than twice the reference market) mainly thanks to Miracle-Ear and the contribution of the PJC Hearing acquisition, which also posted strong organic growth in the period (reported in M&A). The performance posted in **Canada** was strong and that posted by **Latin America** was excellent.

Excluding the contribution of Elite in the third quarter of 2021 and in the comparison periods, the EBITDA margin came to 25.2%, 150 basis points higher than in the third quarter of 2019, despite the challenging comparison base and after significant investments in the business.

The region's financial results including Elite reflect the wind-down process currently underway and, therefore, are not very significant.

ASIA-PACIFIC: Solid and above market performance, despite local lockdowns in Australia and New Zealand

(Euro millions)	Q3 2021	Q3 2020	Q3 2019	Δ% 21/20	Δ% 21/19
Revenues	58.2	55.5	49.2	+5.0%	+18.4%

<i>Margin %</i>	27.0%	40.5%	29.2%	-1,350 bps	-220 bps

ASIA-PACIFIC reported a solid revenue performance, despite the extremely challenging comparison base for the third quarter of both 2019 and 2020. A good performance was posted in **Australia** despite the restrictive measures in place in different areas of the country, while **New Zealand** posted a negative performance due to the lockdowns which resulted in the mandatory closure of the Group's stores throughout the country for around six weeks. The performance in China was excellent thanks to the outstanding organic growth, as well as the contribution of Sound Bridge.

EBITDA reached 15.7 million euros in ASIA-PACIFIC, an increase of 9.3% compared to the third quarter of 2019. The EBITDA margin came to 27.0%, down 220 basis points compared to the third quarter of 2019 due to lower revenues as a result of the lockdowns in Australia and New Zealand and the increased marketing costs incurred in Australia to launch the Amplifon brand and the Amplifon Product Experience roll-out. The comparison of the EBITDA with the same period of 2020 is not significant given the important extraordinary income posted in the quarter related to the Covid-19 emergency.

BALANCE SHEET FIGURES AS AT SEPTEMBER 30TH, 2021

The balance sheet and financial indicators continue to confirm the Group's solidity: the Company generated excellent free cash flow of 160.9 million euros and decreased its net financial debt.

Total net equity was 838.1 million euros at September 30th, 2021, higher than the 801.9 million euros recorded at December 31st, 2020.

Operating cash flow, before payment of lease liabilities, reached 288.7 million euros. The payment of lease liabilities, equal to 69.3 million euros, brought the operating cash flow to 219.4 million euros, 41.4% higher than the 155.1 million euros recorded in the first nine months of 2020. Free cash flow came to 160.9 million euros, an increase of 33.9 million euros (+26.6%) compared to the 127.1 million euros generated in the first nine months of 2020, after investments (net of disposals) of 58.4 million euros versus 28.1 million euros in the first nine months of 2020. Net cash-out for acquisitions (63.5 million euros versus 41.9 million euros in the first nine months of 2020), along with the payment of dividends (49.4 million euros) and the outlays for the buyback program (31.1 million euros) bring cash flow for the reporting period to a positive 18.8 million euros versus a positive 77.3 million euros in the first nine months of 2020.

Operating cash flow was 72.2% higher than the 127.4 million euros generated in the first nine months of 2019 and free cash flow was 134.5% higher than the 68.6 million euros generated in the same period of 2019.

Net financial debt came to 616.8 million euros, lower than the 633.7 million euros reported at December 31st, 2020, with financial leverage down to 1.25x, compared to 1.63x at December 31st, 2020.

SIGNED THE FIRST “SUSTAINABILITY-LINKED” REVOLVING CREDIT FACILITY

On September 30th, 2021 Amplifon signed a new 5-year “sustainability-linked” revolving credit facility with Intesa Sanpaolo (IMI Corporate & Investment Banking Division) for a total of 100 million euros. This facility (which is part of the plan to refinance and expand the Company’s existing revolving credit facilities), linked to certain indicators in Amplifon’s Sustainability Plan, will allow the Company to further diversify its sources of funding, as well as extend its average debt maturity.

EVENTS SUBSEQUENT TO SEPTEMBER 30TH, 2021

After the close of the third quarter, the Company announced the closing of the acquisition of Bay Audio in Australia. The transaction values Bay Audio at around AUD 550 million (around Euro 340 million) on an enterprise value basis.

In October the Company also started the roll-out of the Amplifon Product Experience in the core Spanish market and opened its first Amplifon store in Shanghai.

On October 18th, 2021 Amplifon was included in the new MIB ESG index launched by Euronext and Borsa Italiana, dedicated to the 40 Italian blue chips which demonstrate strong ESG (Environment, Social & Governance) practices. Inclusion in the index provides further confirmation of the Company’s commitment to pursuing sustainable, long-term growth.

Lastly, during and after the close of the quarter, the Group progressed with the wind-down process of the Elite business in the United States. The wind-down will be treated as a discontinued operation in accordance with the IFRS 5 as of the date on which operations are effectively discontinued. More in detail, P&L data for Elite will be excluded from the Group’s consolidated P&L and from the comparison periods starting from the date the business is effectively discontinued. The result of the discontinued operations will be reported in a separate P&L line named *Net Result after discontinued operations*. As of today Amplifon expects the total negative impact for the wind-down of Elite to be around 10 million euros, mainly related to the write-off of assets (credits, other financial assets and goodwill). The discontinuation of Elite is expected to be effective and completed by the end of 2021.

OUTLOOK

The Company is very positive for the full-year 2021 in light of the outstanding results achieved in the first nine months and the positive performance expected for the last quarter of the year. In fact, for the fourth quarter, despite the challenging comparison base, the Company expects an ongoing positive market trend thanks to the effectiveness of the vaccinations in reducing the impacts of the pandemic worldwide, as well as the easing of the restrictions in Australia and New Zealand as vaccinations progress.

Moreover, it is worth noting that the consolidation of Bay Audio as from October 1st shall contribute with additional around 15 million euros to the consolidated revenues expected for the full year 2021⁵.

Finally, the Company expects to continue with the execution of its 2023 strategic plan at a rapid pace thanks to its leading role in the consolidation process of the industry, its unique and unmatched customer proposition which will allow the Company to grow faster than the reference market, while, at the same time, re-investing in the business for a long-term sustainable profitable growth path.

ASSIGNMENT OF PERFORMANCE STOCK GRANT PLAN 2019-2025
